

Public Works Director

SALARY: \$97,660 - \$120,109 | Applications due February 6, 2023

Are you our next Public Works Director?

If you're looking for an exciting career opportunity where you can have a significant, positive impact on an original and growing small community in Oregon's Silicon Forest then look no further!

The position

By joining our team, the Public Works Director can give new strategic direction to the department and work on a large array of exciting projects and developments - including a new Public Works Facility which is currently in the design phase. You will be an integral part of our management team advising the City Manager and City Council, and collaborating with department leadership, staff, and community members.

Our community

North Plains is a small, growing semi-rural city 17 miles west of Downtown Portland on the edge of Oregon's innovative Silicon Forest, less than an hour from the Oregon Coast. With over 3,400 residents and 160 businesses, our gradual and thoughtful growth over the years has helped to maintain a friendly, small-town atmosphere. North Plains residents enjoy a well-managed inventory of improved streets, parks, bike/pedestrian infrastructure, and water systems, and have easy access to major employers, recreation, entertainment, and nature.

Our City

Our small but talented staff of under 25 City employees throughout five departments are proud to serve in an open, supportive, and flexible environment where we work to provide services, solutions, and outcomes that help our community to thrive. We have a tight-knit and supportive office culture, an employee-friendly PTO policy, and we believe in a healthy work/life balance.

We love serving this amazing community and we are investing in our municipal infrastructure with the goal of becoming a complete community. Our next Public Works Director is essential in helping the City achieve this goal.

Public Works Core Services

The City of North Plains Public Works Department provides drinking water, streets, stormwater, and park services to the community 24/7 including:

- 21 miles of water mains.
- Two above-ground water reservoirs with pump stations totaling 3 million gallons.
- 18.2 miles of streets and stormwater drainage ditches.
- 7 public parks, a community garden, and two trails.
- 3.5 acres of landscaping and building maintenance including public parks, the library, and city hall.

The Public Works crew is small but mighty with four staff. Most routine maintenance and small capital projects are completed by staff. Larger capital improvement projects are publicly bid and completed by contractors with oversight from the Public Works Director.
