

Elizabeth Sheehy

Oregon Institute of Technology

I am currently a student at the Oregon Institute of Technology pursuing a Bachelor's of Science and Master of Science in civil engineering. I plan to specialize in structural engineering, and hope to use my degrees to create structures that emphasize sustainability and efficiency.

My hobbies include reading, playing piano, video games, and spending time with friends. I am very excited to receive this scholarship from APWA, and hope to put it to good use in my next year of school.
