

Otho Belkhatat
Portland State University
Civil Engineering

I am honored to be a recipient of the American Public Works Association scholarship as I am keen to join an organization dedicated to the conservation and betterment of both the natural and built environments.

My interest and passion for civil engineering emerged from my fascination with structures, my technical inclination, as well as my drive for making a positive impact on the world. I am currently a senior undergraduate student and am continually in search of savoir-faire in the field.
