

Tyler Puzey
Oregon Institute of Technology
Past Presidents Scholarship

A native Oregonian, I grew up in the northwest fishing, hunting and camping. I still enjoy the outdoors and that played a big role in my career choice.

As I finish my senior year at OIT completing my bachelor's degree in geomatics, I am looking forward to becoming a professional land surveyor. I hope to land in the Pacific Northwest next year but wherever I end up, I am grateful for the financial support I've received from organizations like APWA and I thank you for the gift.
