

Andrew Strout

*Lane Community College
Merle Langley Scholarship*

My name is Andrew Strout. I have been attending Lane Community College for two years and have successfully transferred to Oregon State University. There I will begin the Civil Engineering Professional School in winter 2017.

Currently I am married to a very supportive and loving wife, and a father of a beautiful little girl who will soon be turning eight years old. My wife is currently pregnant, and we are expecting mid-April. I will be graduating from Oregon State in the spring of 2019 at the ripe old age of 31.

While going to school I work at a tutoring center in Eugene, where I can use the knowledge I have gained in college to teach others and advance learning for people of all ages.

I am honored to receive this scholarship and am thankful to my instructor at Lane for directing me toward it.
