

Maxwell Beaudoin

Oregon State University

Ron Polvi Scholarship

I am in Pro School studying Civil Engineering at OSU. I'm also working as a structural intern at Stability Engineering in Corvallis.

I grew up in Seaside, Oregon, and graduated from Seaside High School in 2014. I'm the second youngest of four kids. I recently got engaged to my beautiful fiancé Ashley. In my free time, I like to play the guitar, mountain bike, play racquetball, and float the river.

I'm passionate about residential design and find my work as an intern very satisfying and educational. I look forward to a career in the engineering industry.
