

Jaime Reed

Portland State University

Michael Lindberg Scholarship

I was thrilled to receive the Oregon APWA scholarship award!

When I applied for the scholarship, I was the Deputy City Recorder at the City of Oregon City. I have recently left the city for an exciting opportunity with NW Natural. I am the Enterprise Records Program Manager, assigned to the legal department, and working on some exciting electronic content, records and archival initiatives to support transparency, efficiency, sound decision making, and community trust.

I strongly feel that my coursework at Portland State University in the Masters of Public Administration in Local Government will help me to support NW Natural's Information Governance initiatives and embody our core values of safety, integrity, service ethic, caring, and environmental stewardship.

I love living in the Northwest, so it's important to me to find opportunities to serve my community; I hope my educational growth and professional contributions will ensure I can provide excellence in service to our customers, community partners, and stakeholders.

I enjoy mountain biking, hiking, and fly fishing with my husband, when I am not working or in school.
