

## Sarah Crisp

*Portland State University  
Civil Engineering Scholarship*

My name is Sarah Crisp. I'm a third-year civil engineering student. Although I still don't know what to focus on, I aspire to go into green sustainability.

I am the youngest in my family and hope to be the first to graduate college amongst my siblings. My short-term goal is to continue school and pay my way through with the support of scholarships.

Thank you for this opportunity! This scholarship helps further my education.
