President's Goals 2015

1. Quality vs. Quantity

Ensure the experiences of those members who participate in our programs are of the highest caliber and worthy of their time and money. Offering worthwhile and meaningful experiences will bring those who participate back to our events and they, in turn, can be advocates for our association in order to bring new members into the fold.

2. Relevance

In a world of competing interest and limited opportunities, our chapter must remain relevant to the public works community. We must be willing to change and adapt to meet the needs of our members as well as being attractive to those who have not yet joined. This goal is ongoing and constantly changing which requires all Board members and all committee members to be open-minded and willing to take chances and risks.

3. "If it aint broke..."

With 50 years of experience, the chapter has a long track record of success. Over that time, the chapter has evolved and developed long-standing programs and offerings which its members have come to expect and appreciate. Continued support of these successful events and opportunities are an integral part of the chapter's future achievement.

Ultimately, the Executive Committee and technical committees should strive to achieve the goals and aspirations of the Strategic Plan so as to improve and enhance the chapter and experience of its members.
