

**Caleb Lennon**  
***Oregon State University***

This is my third year at Oregon State University. I plan on obtaining a both a Bachelors of Science in Civil Engineering and a Bachelors of Arts in International Studies. For the international degree I will expand the work I have previously completed in Nicaragua. After I return from Nicaragua I will work to obtain my Masters in either Structural or Environmental Engineering.

I am very thankful to the Oregon Chapter of APWA for this scholarship as it will help me reach my greatest potential in my journey to become a civil engineer.
