

Scott McCurdy

My name is Scott McCurdy and I am 29 years old. I am attending Oregon Institute of Technology where I will graduate this spring with a degree in Geomatics. I have been married for 10 years and have 3 wonderful children, ages 7, 4 and 6 months.

I choose to begin a career in surveying because of the ever-growing need for educated people in this field. My long-term goal is to become a licensed surveyor in the state of Oregon.

I would like to thank the Oregon APWA chapter for helping me to achieve my goals.

Scott McCurdy
